

Project Development Phase

Model Performance Test – Salesforce-style Configuration Summary

Project Title	Script-Controlled ACL – Restrict Record Access Based on Field Value
Team ID	SWTID-2026-1695
Project Name	Skill Wallet

This template's structure (Parameter / Values / Screenshot) is adapted below for the ServiceNow platform configuration actually built in this project, in place of a Salesforce CRM configuration.

S.No.	Parameter	Values	Screenshot
1.	Configuration Summary	2 custom roles (u_swt_admin, u_swt_user), 1 custom table (u_skill_wallet_request, 5 fields), 4 Script-Controlled ACLs (Read, Create, Write, Delete)	[Insert]
2.	Access Enforcement Accuracy	Target: 12/12 UAT test cases passing (100%). See Phase5_User_Acceptance_Testing_FSD.docx for actual Pass/Fail results.	[Insert]
3.	Fine-Tuning / Adjustments (if any)	[Fill in any script or configuration adjustments made after initial testing, if applicable]	[Insert]
