

Project Development Phase

Performance Test – Tableau

Project Title	Script-Controlled ACL – Restrict Record Access Based on Field Value
Team ID	SWTID-2026-1695
Project Name	Skill Wallet

Applicability to This Project

Not Applicable.

This project – Script-Controlled ACL on the ServiceNow Skill Wallet Request table – does not use Tableau or any BI visualization tool. There is no dashboard, story, or calculation-field component in this project. All results are captured as ServiceNow configuration records (roles, table, ACLs) and UAT test outcomes.
